The College has a strong Internal Evaluation System that tests and assesses the comprehension of the students through class tests, assignments, projects, PowerPoint presentations, group discussions, and role play. Each faculty member gives two assignments in each class in all subjects. The marks of internal assessments are displayed on the notice board. Being an affiliated college, the internal evaluation system is as per the guidelines issued by affiliating University. In each course, an internal assessment is awarded on the basis of one class test, attendance, two assignment work. The institution through the college prospectus, timely notices, announcements during general assembly and mentor classes, and deliberations during staff meetings make students and faculty aware of the evaluation process. Students having any type of grievances can approach the concerned subject teacher or university in charge for timely redressal. Each faculty member prepares the absentee slips on a daily basis and submits them to the concerned official in the college office. The students also communicated at regular intervals about their attendance records and this brought regularity in classes. The records of class tests, attendance, and assignments are also maintained by the concerned teacher.

6.5 - Internal Quality Assurance System

6.5.1 - Internal Quality Assurance Cell (IQAC) has contributed significantly for institutionalizing the quality assurance strategies and processes

The Institute formed IQAC on 8th Jan 2014. The IQAC has contributed significantly to developing quality consciousness among the stakeholders. The teaching-learning activities, the quality of

teaching efforts by teachers, the infrastructure and lab facility, the linkages of co-curricular and extra-curricular activities with regular teaching and the interface of the society are some of the parameters of quality control in the institution. Through regular feedback by means of mentor groups and informal interaction with the students, the suggestions given are screened and relevant ones are implemented to enhance quality aspects. Mentor-Mentee Interaction:-

The college has a formal bi-monthly interaction with students through mentor-mentee group meetings so that they develop a smooth communication practice for making the teaching-learning process effective. The aim of the mentor groups is to develop, maintain, and improve the student's performance and promote a co-operative learning environment. Each mentor keeps a complete record of students allotted to them. There is a provision of one period of mentoring in the college timetable, where the mentors interact with the mentees and resolve their problems and grievances at their level or bring the same to the notice of the authority. Mentors focus on assessing both fast and slow learners and guide them accordingly.

The use of Smart Classrooms and Innovative Modern Technology eases the learning process for all students. Smart Classrooms include videos and presentations, which include visual and auditory stimulation for the students. The info-graphics, like pie charts, graphs as well as notes, are saved in the system, thereby saving valuable lecture time and making learning an easier and interesting process. Moreover, in EDUSAT room special lectures were conducted on various topics to help students to have a better understanding of concepts. Students are encouraged to enhance their communication skills and improve confidence through PPT making competitions. Such activities help students to adopt the latest technology in their learning process. Teachers prepared structured

day-wise lesson plans and these are made available to the students before the commencement of the semester. Lesson plans ease the learning process for teachers as well as for students. IQAC monitors and reviews the learning process adopted by teachers. Daily monitoring of the conduct of the classes is done by the Principal. 7.1.3 - Describe the facilities in the Institution for the management of the following types of degradable and non-degradable waste (within 200 words) Solid waste management Liquid waste management Biomedical waste management E-waste management Waste recycling system Hazardous chemicals and radioactive waste management

Solid Waste Management: Two major types of organic waste are generated in the form of fallen leaves from the plants and kitchen waste of hostel, which is biodegradable. Recycling techniques that generate a minimum impact on the environment are used. EVS Club and Society and Hostel use integrated solid waste management which helps to maintain sustainability by dumping fallen leaves and recycling the kitchen waste. For this, we have vermicomposting pits (size 1mtr. x 3mtr.).

These are used alternatively for dumping purposes. Pits are kept moisture by the students and caretakers so that microorganisms like and bacteria and fungi can survive. They convert complex organic matter into simple nutrients that are released in the soil. In this way, they recycle the nutrients and make it available to plants as manure. Solid Waste Management is a vital and ongoing process in the college campus in which students of the hostel, eco club, NSS participate. All the activities are done by the students of Eco Club, EVS Department.

E-waste Management: The institute does not have a regular practice of E-waste management. However, permission from the Higher authorities has been sought to write off e-waste. Further, UPS, batteries are replaced under buyback policy from HARTRON Chandigarh.

Liquid-waste Management: The college has set up a liquid manure unit to the optimal utilization of liquid waste.

The College has signed an MoU with green dream oundation New Delhi making eorts with composting of hotriculture and organic waste at the college premises.
